OBJECTIVE

As a Passionate **MERN Stack Developer**, I Aim To Build Innovative Web Solutions That Enhance User Experiences Through Seamless Frontend And Backend Development.

SKILLS

HTML5 | CSS3 | Bootstrap | JavaScript | MongoDB | Express js | React js | Node js |

INTERNSHIPS

BlueCode Solutions

R.S.Puram,Coimbatore

MERN Internship

2024 June - Present

During my internship as a MERN Stack developer at BlueCode Solutions, I gained hands-on experience in full-stack development, working with technologies like HTML5 ,CSS3, JAVASCRIPT , as Well as frameworks like React js, Express js, Node js ,and the database MongoDB .

PROJECTS

Weather App

[view app](#)

My weather app is a user-friendly and visually appealing application built with HTML, CSS, and JavaScript. It utilizes a weather API to fetch real-time weather data, delivering accurate Weather conditions for any location. The app's Design if Fully responsive With an attractive UI, users can input a location and instantly receive weather updates.

Quiz App

[view app](#)

This quiz app is designed to test users' knowledge interactively across multiple topics. Leveraging asynchronous processes, it automatically transitions to the next question after 10 seconds, giving users a limited time to answer each question. The countdown timer adds a sense of urgency, making the experience engaging and challenging.

Todo-list App

[view app](#)

This to-do list app helps users stay organized by allowing them to add, edit, and delete tasks with ease. Built using HTML, CSS, and JavaScript, it utilizes both local and session storage to enhance user experience. This dynamic to-do list app is designed to help users efficiently manage their tasks and boost productivity.
